Pregnancy Guarantee

If the mare does not become pregnant:

- A veterinary pregnancy examination must be performed approximately 21 days after the final insemination.
- If the mare is confirmed not pregnant, the customer is entitled to receive up to two additional replacement portions.
- For each replacement portion provided, the Icelandic station fee must be paid again.
- The stallion fee is not charged again for these replacement doses.
- The Icelandic station fee may be charged a maximum of three (3) times in total per mare (original portion + up to two replacement portions).

If the mare is still not pregnant after the two replacement portions:

- The stallion fee will be refunded.
- The Icelandic station fee and delivery costs are non-refundable.
